Biddeford Airport Receives Perfect Grade Inspection

On Thursday, May 18th, Aviation Air Quality Control was on site at Biddeford Airport for the annual Phillips 66 Aviation Fuel Inspection.

City is excited to announce, the airport received a perfect inspection score!

Last year, only 17% of the Aviation's Fixed Base Operators (FBO) earned a perfect score. This is a great testament of our staff's commitment to quality and daily maintenance.
